

## Inside Sales Job Description

Sept 21, 2018

Customer service representative / inside sales / industrial supply

We are a cutting-edge company selling application specific cutting tools to the machining and metal working industry. We deal with customers from all market sectors including general machining, aerospace, energy, communications, transportation, forestry, mining, food industry, education, shipyards, military and many more.

We are looking for applicants with great communication skills to fill two openings in our inside sales team. Duties would include order desk / telephone sales, assist walk-in counter customers, and support our outside sales team.

- Knowledge of metal working tooling and experience in dealing with customers would be an asset.
- Customer service reps working in related fields will be given priority consideration.

We have an ongoing training program to assist successful candidates in developing product knowledge and thus accelerate their career path within our organization. Our compensation package is substantial and includes medical and extended medical. We also offer a yearly profit-sharing program along with annual salary reviews. Starting wage range is \$ 20 – 28 \$ / hour and will relate directly to experience.
