

**MAY 22 2020**

**NOTICE TO ALL TECHNICUT CUSTOMERS REGARDING SALES CALLS**

**COVID-19 PROTOCOL FOR SALES CALLS**

**We have now entered phase two of the Pandemic Response and as such are following the guidelines as outlined by BC's Public Health Department. Our Technical Sales Representatives will be contacting you to determine your time line and comfort level regarding on site sales visitation.**

**If you are in a position to accommodate on site sales calls our field reps will need to make themselves familiar with your safety protocols and at the same time outline those put in place by our company to keep them and you, our customer, safe. If your company is not ready to resume in person visitation, we will continue to offer support by telephone and other technologies.**

**We have advised our staff that at no time are they to take unnecessary risks. Our company will always have Safety as our top priority. Both for our customers and our staff.**

**All Technicut Staff have signed a "TECHNICUT CODE OF CONDUCT PROTOCOL" which includes ten safety measures with regard to personal behaviours that could impact both our customers and our company as regards to COVID-19. Every one of our staff is committed to making efforts to keep our supply chain safe for all of you.**

**Please feel free to visit our website at [TECHNICUT.CA](http://TECHNICUT.CA) to view a listing of all our COVID-19 safety protocols.**

**We look forward to seeing you when time is right for you.**

**Thank you for your support**

**Chris Sparrow / President**
