

Skoda Heavy Duty Live Centres - CSN 243324/CSN 243324M

Features

- The rotating spindle is extended right through the tapered shank
- Two specially designed adjustable needle-roller bearings carry all radial loads
- A heavy duty ball thrust bearing takes all axial thrust
- Complete protection of bearings from the ingress of coolant, dirt or swarf is provided by the built-in oil-seal, which also prevents loss of lubricant

Premium HSS Jobber Length Drills

These Premium HSS drills can be used in a variety of applications. Their surface treatment increases abrasion resistance, which reduces the amount of chip welding and improves chip flow.

Engineers Black Book - 3rd Edition

The all new 3rd Edition has been released with 40% more page content.

Full Colour - Pocket Sized - Lay Flat Format - Highly Durable - Anti-Glare

Easy to use **Pocket Book** contains a wealth of up to date, useful, practical, and hard to find information.

- Tables
- Grind Wheels
- Bolts & Nuts
- Tapers
- Tapping Drill Sizes
- Tolerances
- Spur Gear Calculations
- Hardening and Tempering
- Sharpening Information
- Illustrations
- Lubricants-Coolants
- Plastics
- Weights of Metals
- Equivalent Charts
- Tungsten Carbide
- Standards
- Conversion Factors
- Formulae
- Keys and Keyways
- Speeds and Feeds
- G Codes
- Engineering Drawing Standards
- Geometrical Construction
- Free set of self-adhesive bookmarking tabs included

Code No.: 180151
Reg. Price: \$61.10

\$51.94

Fastener Black Book

- Inch
- ISO & DIN Specifications
- Fastener Platings & Finishes
- Pre-Loads & Tightening Torques
- Thread Terminology & Classifications
- Standard Grades, Tolerances & Markings
- Thread Forms, Heads, Points, Materials and Coatings

Includes a Free Thread Gauge!

IP67 Coolant Proof Digital Calipers

ASIMETO

Features:

- Absolute function, there is no need to set the zero
- Hold function for easy reading
- Absolute or incremental measuring modes
- Inch/Metric conversion
- Metal Housing, the design will allow the caliper to be used in normal workshop conditions and is resistant to coolant, water, dust or oil
- Auto power on/off
- Power: 3V lithium battery

Thread Measuring Wire Set

ASIMETO

Features:

- 48 wires - 16 different sizes
- Measures all threads from 3 - 48 threads per inch
- Measures all metric threads from 0.5mm to 6mm
- Also measures ACME threads
- Laminated chart included

Thread Wire Set	7697300	28.95	21.71

Articulating Arm Magnetic Bases

ASIMETO

Features:

- Accepts test indicators with dovetail clamping mechanism
- Dial gauges can be held by the 3/8" or 8mm diameter stem or by the lug backing plate
- Arm has 3 articulating joints that can be locked with the single hand knob
- The rotary knob switches natural magnet on or off
- The precision surfaces and the bottom V are securely fastened to the ferrous work piece or machine table when the rotary knob is in the on position
- Slot: 6.5mm
- Working Angle 150°
- 7602011 does not have fine adjustment

Multi-tasking 5-Axis Modular Vises

The MULTITASKING range of vises has been specially designed for 5-axis machines. Working on 5 sides of the workpiece, it allows the best optimization of the machining cycle. Thanks to the compact design this kind of vise can be installed on all machining centers. The use of GRIP jaws is strongly recommended with multitasking vises.

- Self-centering or eccentric
- Eccentric jaw adjustment in steps of 2mm
- Highest accuracy in positioning and alignment (±0.02mm) due to ground rack teeth on both the base and the fixed jaws
- Minimum deflection
- Solid, rigid construction and maximum clamping ratio to the total length
- Positioning through ground holes or keyways
- All case hardened to HRC60 for durability

GS Plain Base Modular Vises

Manufactured under rigid quality control. As a result of the high standard construction, GS Vises can be depended upon to maintain their accuracy under the most severe operating conditions. The modular design and the concept of interchangeability makes possible a wide variety of set up combinations.

Features/Benefits:

- High accuracy
- Unlimited clamping range
- High quality alloy steel
- High clamping pressure
- No jaw lift
- All vises are matched

Standard ER Collets

Our ER collet system is made of special alloy steel material under excellent heat treatment and precise grinding process, so it has precise accuracy, powerful clamping ability, and is durable. This collet can clamp for a specific standard size and its next size. It can be widely used for boring, milling, drilling, and tapping as well as for grinding operation, and is available for all sizes.

GS-ADX-160G Precision Milling Machine Vise

The GS-ADX-160G replaces our very popular 327290M vise.
It has been redesigned with new state-of-the-art workholding features.

NEW AND IMPROVED

- Jaw opening increased from 8.8" to 9.13"
- Same bed height as our 327290M: 2.875" ±0.0005"
- Narrower body style to allow more vises on a machine table
- The bearing pack has been relocated to help reduce oil / water / chip leakage into the vise body, thus improving the life time
- The thrust bearings have been replaced with ball bearings to make the pack stronger and more stable
- Same distance from the keyway to stationary as the 327290M
- ADX-160G weighs 68 lbs. vs. 80 lbs for the 327290M
- Spindle does not protrude past the end of the body
- Spherical segment creates all-directional alignment and reduces jaw lift for improved performance
- New brush seal design
- Perpendicularity (running face and jaw plate): 0.0004"
- Parallelism (running face to bottom of bed): 0.0006"
- Material: FCD-60 (80,000psi)
- New stationary jaw: 4 bolt stationary design reduces lift
- Pull-Type design: Reduces stress on body during clamping
- Chip evacuation: Straight through the body on sides and ends.
Locations strategically chosen to not reduce body strength

Code No.: 327320 **\$716.22**
Reg. Price: \$795.80

GS High Performance Live Centres

- Each GS live centre uses either a 3, 4, or 5 bearing system providing superior performance and tool life
- A special coating process for the lip seal contact area offers a higher sealing ability and reduces rotational friction
- Designed to prevent excessive heat even when rotating at maximum RPM, extending tool life
- Every GS centre has passed at least 4 different accuracy tests to ensure the highest quality

HSS Straight Flute Chucking Reamers

For general purpose reaming of almost any metal, in drill presses, turret lathes or screw machines.

- Cutting ends are ground with a 45° chamfer for easy hole entry
- Built for machine use, with shorter, deeper flutes than hand reamers
- Right Hand Spiral
- Right Hand Cut
- H7 Tolerance

SHRINK FIT TOOLING

CAT Taper Shrink Fit Tooling with 4 Coolant Ports

4 COOLANT PORTS:

- Positioned in nose and angled 1° which concentrates coolant towards the cutting edge.

BALANCE:

- Pre-balanced to G2.5 up to 30,000 rpm.
- Machine balanceable.
- 4 Threaded holes for balancing screws.

MATERIAL:

- HSS-H13 for fast and proper heat induction increases life of shrink machine and spindle.
- 100% Forged construction (not turned down bar stock).

MAX GRIPPING TORQUE:

- Tool is gripped 360° along the entire length of bore, resulting in an evenly distributed clamping force.

UNSURPASSED ACCURACY:

- 0.0001 = 3µm with tool in holder.
- Traverse ground throughout.
