Translight® + 555 ADF & Helmet

- Translight® shell has a sleek modern design—a Jackson exclusive!
- Helmet is super lightweight and ergonomically balanced to reduce stress and fatigue with True Colour
- Auto-darkening filter meets 1/1/1/1 Optical Clarity Standard, the highest in the industry
- Includes an external grind button so end users can switch modes with ease
- Features the new external shade adjuster to help aid in visual focus
- The shade adjuster can finely tune shades up to ± 1 full shade with .2 shade adjusting increments
- Welding, grinding, cutting, and carbon arc gouging can be performed with the versatile 555 ADF
- Includes patented 370 Speed Dial ratcheting head gear system
- Advanced digital controls are a great quality-of-life enhancement for welders
- Switching speeds of 1/25,000 second
- Packaged in attractive, full-colour POP box—case quantity 4
- Powered by solar technology and two CR2032 replacement batteries
- Touch pad controls allow quick and easy function selection
- Features integrated mag lens holder
- Industry leading 3/5–14 shade range—allows use in high-amp welding applications
- Meets or exceeds ANSI Z87.1 and CSA Z94.3 standards, CE certified

Premium Series Welding Helmet with Extra-Large Blue Lens Technology ADF

- Our premium series ADF welding helmet offers excellent neck and head protection
- Made using lightweight materials, this helmet offers outstanding protection, performance, comfort and reliability
- Designed for use with cartridge respirator
- Easy lock/unlock replacement cartridge
- Features state-of-the-art Blue Lens Technology, allowing the user to experience true colour vision
- Features 4 arc sensors - amazing clarity, enhanced definition, and reduced eye fatigue
- Fully digital operation: shade, sensitivity, delay and weld/grind control
- Adjustable sensitivity and delay controls
- Wider viewing area, ideal for difficult work angles
- Memory function allows the operator to store different shade, sensitivity and delay options
- All controls are internal for maximum protection
- Solar and battery operated
- Easy auto-darkening filter and cover plate removal and installation
- Automatic power control
- Complete with grind mode / grinding warning
- Low battery warning is standard
- Comfortable lock/unlock push and twist ratcheting head gear adjustment
- Meets ANSI Z87.1 and CAN/CSA Z94.3 standards

PeakWorks Tool Tethering System

A ROUND CLAMPS

- Designed for use with round and hex shank tool bodies

B FLAT CLAMPS

- Designed for use with wide or flat tool bodies
- Small flat clamp fits a range of wrenches approximately 1/2" to 7/8"
- Large flat clamp fits a range of larger wrenches approximately 9/16" to 1-5/16"

C WRIST AND HARNESS LANYARDS

- The wrist lanyard features a built-in heavy-duty adjustable wrist collar on one end and a small carabiner on the other, conveniently tethering the tool to your wrist
- The standard lanyard features two small carabiners designed to connect to the clamp and the other end to operator (or a suitable anchor)

- The small carabiner is designed to fit into the moulded eye hole built in to each of the tool clamps and is used to tether the tool to your body or to a suitable fixed anchor
- Designed for tools with a maximum weight of 15 pounds. **Do not exceed** this weight limitation

V856240

Wrist Lanyard

V856250

- Slim Line tool lanyard for smaller, lighter tools
- Capacity of 15 lbs (6.82 kg)
- Durable for long-lasting use

Shock Absorbing Lanyards

- SP (Shock Pack) lanyards are comprised of "tear webbing" which is woven in a manner that allows the webbing to tear when it has a load applied to it. This tearing absorbs a significant amount of downward force under load, reducing injury. This tear webbing is folded and shrink-wrapped into a compact 1 x 2 x 6" (2.5 x 5 x 15 cm) pack that is sewn into the lanyard next to the body connector.
- Certified to CSA Z259.11-17 standards
- Made with a superior grade, heavy-duty 1-3/4" (45 mm) or 1" (25 mm) polyester webbing for maximum strength or 1/4" (6 mm) galvanized plastic coated cable, with tear webbing shock absorber
- A tear away absorber limits the arrest force to a maximum of 1,800 lbf (8.0 kN) and an average arrest force of less than 1,350 lbf (6.0 kN)
- PeakWorks SP lanyards are available in two capacity categories; 110–220 lbs (50–100 kg) and 200–350 lbs (90–159 kg)
