## Countersinks

Metric | Cobalt M35 | TiN Coated

This highly productive countersinking cutter is a much improved version of the traditional multiflute milling cutter:

- wide flutes provide good chip evacuation
- positive cut
- constant profile aids regrinding of the tool
- self-centering of the cutting mill (three bearing points)
- virtually eliminates vibration
- Dimensions are adapted so as to sink 90 degree screw caps up to M12. We recommend lubricating
