duMONT Minute Man® Industrial Broaches

duMont® Keyway Broach Sets

- Now you can make precision holes or keyways in seconds... a few at a time or production quantities... by a simple push-through broaching operation using a hand operated arbor press or hydraulic press
- All sets furnished in handsome varnished wood box come complete with precision broaches, slotted bushings, and necessary shims
- Set No. 00 - the most common keyway combinations for small keyways and bores. 3 broaches & 5 bushings = 15 combinations

MORSE Straight Flute Hand Taps - Metric

Ground Thread - High Speed Steel - Plug

- Straight Flute hand taps are used for hand tapping and machine tapping in through holes or blind holes in a wide variety of materials.

4 Flute TuffCut® XR HP ALtima® Coated End Mill

Center Cutting ▪ Variable Helix ▪ Fractional Sizes

- Recommended for slotting and general purpose milling
- Very high feed rates & excellent surface finish
- Unique flute geometry allows for increased feeds and speeds while reducing harmonics
- Coated with ALtima® (AlTiN)
- for extended tool life
- M A Ford List #177

The A Brand

A Brand® AE-BD-H High Performance Carbide Ball Nose End Mills

Stub Length - 2 Flute

- Variable Negative Spiral Gash - Controls chipping while securing cutting quality by making the negative angle weaker near the outer periphery; chipping resistance is enhanced in combination with the weaker helix angle specification
- Superior Ball R Precision - Secures stable R accuracy across 180°
- Thickness at Center - Thickening of the center core to prevent deformation of the ball tip and improve control of chipping
- Superior Shank Accuracy - Supports h4 tolerance (0/-0.004)

Spotting & Centering Drills

High Speed Steel ▪ 90° and 118° ▪ Right and Left Hand

- Prevent misalignment frequently caused by using regular drills for centering
- These short drills can be chucked close to the point ensuring accuracy and true starts

IMCO POW•R•FEED M936

Faster, Clog-Free Cutting Power

- Proprietary end geometries for extremely aggressive ramping and helical entry parameters
- Variable helix angle for excellent chip evacuation, long tool life
- Variable index for reduced chatter provides superior balance, super-stable performance
- Extra-fine cutting edges extend tool performance and allow the versatile tool also to be used in dynamic, high efficiency machining situations

Single Flute Countersinks - Carbide

60, 82, 90, 100 & 120 Degree

- Produces a smoother finish
- Can be used when multi-flute countersinks chatter
- Carbide offers excellent wear resistance, heat resistance and rigidity
- Recommended for abrasive materials, difficult-to-drill materials and increased tool life in production applications

M.A. FORD

Uniflute® Countersinks - High Speed Steel

High Speed Steel

- Designed for general purpose countersinking, chamfering or deburring
- Self piloting and completely chatterless
- No secondary burrs formed
- Steam homogeneous surface treatment (blackening) to prolong tool life and prevent galling
- M A Ford Series #61

CGW CAMEL GRINDING WHEELS

Quickie Cut™ Reinforced Cut-Off Wheels

- Extra-thin reinforced Type 1 cut-off wheels for fast, efficient cutting
- Aluminum oxide abrasive designed for cutting Metal, Steel, and Stainless Steel with an Iron-Free formulation to help prevent rust development
- A36-TBF wheels provide fast cutting action and long wheel life
- A60-TB Flex wheels deliver fast cutting performance with added flexibility and extended life
- Sell pack quantities may vary by product

Cubitron 3 Flap Disc (1169F)

- Delivers long-lasting premium performance and versatility
- Proven to outperform traditional alumina zirconia flap discs
- Individual flaps break down, exposing fresh mineral to deliver consistent cut rate for the life of the disc
- Covers a wide range of applications from weld grinding and beveling to surface prep, deburring, blending, finishing, weld spatter removal, and work on edges and contours

Portable Sander Belts

Blaze Belts

- Blaze ceramic grain belts last 50% to 200% longer on Mild Steel, Carbon Steel, Stainless Steel, Cobalt, Chrome, Inconel, and Titanium applications
- Cuts cooler and up to 30% faster than previous generation belts
- Improved Y-weight polyester cloth backing provides better grain adhesion and edge fray resistance
- Delivers a more consistent grind throughout extended belt life
- Reduces total grinding costs through longer belt life and improved performance

Cubitron 2 Roloc Durable Edge Disc (R84F)

- Featuring durable edge backing - for longer edge retention
- The 984F disc series extends disc life via precision-shaped ceramic grains
- Quick change discs
- Features a flexible, durable cloth backing that stands up to aggressive grinding applications
- Optimized for: Stainless Steel, High Nickel Alloys, Superalloys, and Carbon Steel

			Attachment Type - TSM			Attachment Type - TR

CRESCENT NICHOLSON®

Mill & Knife Hand Files - Smooth & Bastard Styles

- Knife files are for use on slots, keyways and acute angles. Knife files are double cut on the "knife edge" with a safe (uncut) back and taper toward the point in width and thickness.
- Mill files are excellent for a wide range of applications such as sharpening, draw filing, lathe work and general shop use. Mill files are single cut on the sides and edges, and taper towards the point in width.
- Bastard cut, a coarse file designed for fast removal of stock material
- Smooth cut, a fine file designed for making an almost smooth surface

PROCELL®
PROFESSIONAL BATTERIES

Professional Industrial Batteries

The Procell Difference

- World's first dual portfolio of professional batteries: by conducting intensive device testing and analysis
- Procell has discovered that a way to dramatically extend alkaline battery life and cut replacement costs is to engineer device-specific industrial alkaline batteries, each with unique power profiles
- Premium brand exclusively focused on the professional battery market
- Deep understanding of professional devices and the battery category through device testing and analysis in our labs
- Available in Alkaline and Lithium
- Standard power and Intense extra strength power available
- Sold in box qty only

Procell
- Alkaline battery
- General purpose
- Reliable long lasting power
- Operating temperature -4º to 129.2ºF

Procell Intense
- Alkaline battery
- For high drain devices
- Date coded
- Operating temperature -4º to 129.2ºF

Procell Lithium Coin/Cell
- Lithium coin battery
- For compact professional devices
- Operating temperature -4º to 140ºF

Procell High Power Lithium
- High power lithium battery
- General purpose
- Operating temperature -4º to 140ºF

3M

Particulate Vapor Respirator, R95

- Designed to meet NIOSH certification standards
- Some models available with 3M Cool Flow Exhalation Valve to help release warm and moist exhaled breath from inside the respirator
- Adjustable noseclip options help provide a custom and secure seal
- Some models available with fully adjustable buckle straps or dual elastic headbands for maximum comfort and effectiveness
- 3M proprietary filter media designed for ease of breathing
- Some models available with Activated Carbon Filter layer for the control of nuisance level organic vapors
- Some models available with flame resistant layers for applications such as welding or soldering which combines with cake resistant filter media to help prevent caking of particles when sanding or grinding

REUSABLE TPR CORDED EAR

- Pre-formed plug shape with no rolling required makes insertion simple
- Self-sealing flanges give all day comfort
- Rigid stem makes insertion easy and reduces the risk of contamination
- Corded versions use a non-resonating textile cord for comfort and easy storage
- Cord can be detached for added safety when working around machines, or when the TPR plug is to be cleaned using soap and water
- Can be reused several times, making them very cost efficient
- Moderate attenuation allows for safe usage that blocks out hazardous noise yet allows warning signals and voices to be clearly understood
